2.5 Days

Spreadsheet/ Easybuilder Workshop \$150

This workshop covers the basics of the new “EASYBUILDER” and “Basics of Spreadsheet Programming” Explorer software. The class begins with introductions to the new EasyBuilder software and progresses through examples, presentations, and hands on labs. The second half of the class gets into the basics of Spreadsheet programming. Since EasyBuilder is based on the spreadsheet, a basic understanding of spreadsheet programming is very desirable.

Lunch will be served the first two days of this class.

Available: June 22-24, July 20-22, Sept 7-9, October 19-21, and November 30-Dec 2.
